

Dear Parent or Carer

WELFARE OF YOUNG PEOPLE

First and foremost, it is your responsibility to let us know of any physical or other condition which may restrict your youngster's abilities. Please do so by way of the annual Consent & Agreement form initially and otherwise in writing thereafter.

You may like to consider applying for the post of All Saints "Club Welfare Officer" (CWO) - as described in BE information on their website – re: the Safeguarding of all Young People in our Club. However, Parents & Carers are written into our Constitution along the lines of ipso facto CWOs. Thus, you are invited positively to involve yourself with us as appropriate - notwithstanding your natural rights or any absence or presence of a CWO.

Please see page 2 of this letter for basic Safeguarding information.

CONSTITUTION AND CODE OF CONDUCT

We would ask you to understand the Club's Constitution and its Code of Conduct on behaviour and equity. In a nutshell these show a) we expect badminton to be played in a proper manner and b) how we take account of factors from individuals' viewpoints to the advice of governing bodies.

The Constitution & Code of Practice are available on the our website:- www.allsaintsbc.co.uk

WHAT WE DO AND WHY

Coaches

Our coaches are volunteers. They are here to help those who wish to improve their tactics, techniques and physical abilities.

They are insured through the sport's governing body Badminton England (BE) and must comply with conditions of insurance. They must coach to standards set through proper training and must keep abreast of developments. There must be an appropriately qualified person at all sessions.

Coaching Sessions

We include a variety of physical activities to help with mobility for sport in general as well as badminton in particular. On the non-physical side we try to ensure that participants realise it is not so much what you practice, but how you practice. We believe BE, Sport England and the UK Coaching Council would consider such matters to be fundamental to good coaching.

As to physical contact, at one extreme we traditionally shake hands at the end of all games; at the other, it may be instinctive in an accident/emergency. In coaching itself occasional contact - typically with the hand, wrist, elbow or upper arm - rarely anywhere else - can help the learning process; there may also be a degree of contact in games and exercises. That said, we would be happy to use our best endeavours to ensure there is no physical contact - but please advise us in writing.

Above all, we hope you and yours have as much fun through badminton as we do!

Yours sincerely

Doug Clark
